EDUCATION

ABES Engineering College, Ghaziabad
Bachelor of Technology in Computer Science and Engineering

2023 – 2027
CGPA: 7.63/10.0

PROJECTS

SnapTick — AI-Powered Attendance System

Live Demo

React.js, Node.js, Express.js, MongoDB, Face Recognition API, Tailwind CSS

- Built a full-stack web application enabling teachers to upload classroom images; the system uses AI-powered face recognition to automatically identify enrolled students and mark their attendance in under seconds.
- Developed RESTful APIs with Node.js and Express.js for image upload, student enrollment management, and attendance record storage backed by MongoDB.
- Implemented role-based access for teachers and admins with a clean, responsive UI using React.js and Tailwind CSS, making the attendance process seamless and paperless.

TransIt — Expense Tracker & Bill Splitter

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack personal finance web application targeted at hostel students to track daily expenses, categorize spending, and gain visibility into their budgets.
- Implemented a bill-splitting feature allowing groups of users to split shared expenses fairly during outings or parties, with automatic per-person calculation and settlement tracking.
- Designed RESTful APIs and a relational data schema to store transaction history and group data, with a responsive dashboard built using React.js and Tailwind CSS.

Moodify — Mood-Based Song Recommender

React.js, Node.js, Express.js, MongoDB, GSAP, Tailwind CSS

- Built a MERN stack web application that detects a user's current mood (happy, sad, or surprised) and delivers personalized song recommendations tailored to that emotional state.
- Engineered mood-based filtering logic on the backend with Express.js and MongoDB to serve relevant song suggestions dynamically based on user input.
- Crafted a visually engaging, fully responsive UI with smooth animations using GSAP and Tailwind CSS, delivering an immersive and interactive user experience.

TECHNICAL SKILLS

Languages:	C, C++, JavaScript
Frameworks & Backend:	React.js, Node.js, Express.js, REST API Development
Databases:	MongoDB, MySQL
Styling:	Tailwind CSS, GSAP
Tools & Deployment:	Git, GitHub, Vercel, Render

CERTIFICATES / ACHIEVEMENTS

- AWS Training & Certification – *Introduction to Generative AI: Art of the Possible*, August 2025
- AWS Training & Certification – *Foundations of Prompt Engineering*, September 2025
- Certificate of Appreciation – *Industrial Visit (Network Bulls Pvt. Ltd.)*, February 2025
- Solved 100+ problems on LeetCode, strengthening DSA and algorithmic problem-solving skills
